LYNNFIELD DIRECTORY

WAKEFIELD, MASS.

A THRIVING, HEALTHY
GROWING TOWN

Nature has been unusually kind in making Wakefield a beautiful residential district, in providing not only undulating hills and valleys but two charming lakes as well. The highways are broad and many well shaded, and the extensive park system is a merited source of pride to all its dwellers. Its transportation facilities are unsurpassed by any town in the State, the trolleys radiating from the Square in seven directions and the Boston & Maine Railroad favoring with nearly a hundred trains daily employing six stations.

Wakefield possesses commodious modern schools, numerous churches, a public library, lodges representing nearly every fraternal and patriotic order, women's clubs and other social organizations. It has an up-to-date motorized fire department and superior banking, express, freight, telephone and telegraph facilities.

WIDE-AWAKE WAKEFIELD has the largest willow and rattan factory in the world, one of the larger knitting mills of the country, and besides has prosperous industries producing pianos, sheet iron and brass castings, paper boxes, sanitary supplies, rubber products, screens and doors, interior finish, jewelry novelties, lead-lined and tin-lined water pipe, lawn tennis goods.

Wakefield is a railroad center, having the main line of the Boston & Maine and two branch lines radiating from it, thus presenting unusual opportunities for side-trackage and the introduction of new business. This is a golden opportunity for you. Write to the

ELECTRIC WATER HEATERS

For the Plumbing Trade

The TRU-MAC electric water heater is the most dependable and modern domestic hot water service obtainable. Automatic in operation and insulated to give a maximum of service at a minimum expense.

The TRU-MAC electric water heater heats your domestic water the modern way by electricity. SAFE, ECONOMICAL, NOISELESS. It can be placed anywhere. No flues required. No heat outside. All in the water.

The TRU-MAC electric water heater is made in sizes from 5 to 50 gallons. 300 lb test galvanized iron, copper or monel metal. Temperature adjustable to conditions.

The TRU-MAC electric water heater can be obtained from your leading plumber or we will gladly have one of our engineers consult with you relative to your hot water problem.
